TAKING THE LEAP: AN INTRODUCTION TO TNFD

Understanding the concept of nature-related financial disclosures and how the ISSB practice statement applies for reporting

Programme Overview

With Nature being the next agenda after climate, the introduction of the Taskforce for Nature-related Financial Disclosures (TNFD) and the publication of the ISSB Practice Statement (under public consultation) reaffirms the disclosure imperative for businesses. This programme provides an overview of the TNFD, the concepts and terminology used, how it is applied and what businesses need to understand before adopting the TNFD framework for disclosure.

Key Focus Areas

- Understanding how nature and businesses intersect
- Broad overview of the concepts used in the TNFD framework
- Resource considerations in the journey towards adoption of the TNFD
- Application and implications of the ISSB practice statement (under public consultation)

Delivery Format

- Highly interactive question and answer sessions
- Group discussions and exercises

Morning Session 1 | 9.00 am – 10.30 am

Module 1: Nature Through the Business Lens

- Understanding the meaning of nature in the context of the Taskforce for Nature-related Financial Disclosures (TNFD)
- Nature-related dependencies and impacts: beyond biodiversity.
- How water, land, soil, ecosystems and ecosystem services affect business resilience.

Morning Session 2 | 10.45 am – 12.15 pm

Module 2: Why Are Regulators and the Finance Sector Looking at Nature?

- Recognising the influence of global policies in the development and rollout of TNFD
- Local developments on nature and its reporting
- Nature risk through the business lens

Afternoon Session 1 | 1.15 pm – 3.30 pm

Module 3: Getting Started – Pragmatic First Steps

- Familiarising yourself with the language and concepts used by TNFD
- Understanding and applying the LEAP (Locate, Evaluate, Assess, Prepare) approach
- Leveraging sector guidelines and public tools available for assessment

Afternoon Session 2 | 3.45 pm – 5.30 pm

Module 4: What to Expect?

- Case studies of nature reporting by businesses
- How does TNFD align with the Global Reporting Initiative (GRI) Standards
- Understanding and applying the ISSB practice statement

Recap & Questions

Trainer's Profile Amanda Lee

Amanda is a seasoned sustainability leader with over 15 years of industry experience driving ESG strategy, reporting, and stakeholder engagement. With a Master's in Sustainable Development Management from Sunway University and B.Sc. in Environmental Science and Environmental Policy, she combines broad technical expertise with strategic vision and practical application.

Previously, Amanda has held senior sustainability roles in the finance, energy, transportation, and water management sector, where she consistently advanced company ESG ratings and secured multiple national awards for excellence in sustainability reporting and corporate governance. Her expertise focuses on in-house sustainability management, reporting, ESG ratings, strategy and policy development, sustainable finance frameworks and stakeholder engagement.
