MALAYSIA'S FIRST WAVE OF NSRF

From Disclosure to Decision: What the First Reporting Cycle Tells Us

Supported by

CLIMATE GOVERNANCE MALAYSIA

Programme Overview

Malaysia's first NSRF reporting cycle provides an early view of how listed issuers are translating IFRS S1 and IFRS S2 into practice. Drawing on the MSWG–CGM review of 91 Group 1 issuers, this executive briefing explores the progress made, the gaps that remain and the critical shift from disclosure to decision-useful information.

Key Focus Areas

- First-wave NSRF findings and reporting maturity
- Climate governance, risk and board oversight
- Connecting sustainability with strategy and financial performance
- Key disclosure gaps and data readiness

Delivery Format

- Executive briefing and expert perspectives
- Practical, discussion-led sessions
- MSWG–CGM Executive Dialogue
- Interactive participant Q&A

Part 1 | 1:30 pm – 2:15 pm

The First Wave – What We Found & Why It Matters

Dr Ismet Yusoff
Chief Executive Officer, MSWG

- First NSRF reporting cycle – key findings from 91 Group 1 issuers
- Progress in climate risk, governance, scenario analysis and emissions reporting
- Uneven reporting maturity and key disclosure gaps
- The emerging gap between disclosure and financial connectivity

Part 2 | 2:30 pm – 3:15 pm

From Climate Governance to Decision-Usefulness

Datin Seri Sunita Rajakumar
Founder, Non-Independent Director, Member of Council, CGM

- Board oversight of climate-related risks and opportunities
- Connecting sustainability with strategy, risk and financial performance
- From governance structures to decision linkages
- Strengthening the quality and usefulness of sustainability-related information

Part 3 | 3:30 pm – 4:15 pm

Nature-related Risks - Guidance from the ISSB Exposure Draft

Dr Gary Theseira
Chairman, CGM

- Nature-related disclosure under a climate-first reporting paradigm
- The guidance from the ISSB's Exposure Draft - The Practice Statement on Nature-related Risks and Opportunities
- NSRF Usefulness - Potential exposure to the current El Niño through 2026 and into 2027

Part 4 | 4:15 pm – 5:00 pm

The Next Wave – Raising Reporting Maturity

Executive Dialogue: Dr Ismet Yusoff, Datin Seri Sunita Rajakumar & Dr Gary Theseira

- From first-cycle capability to greater reporting maturity
- Addressing key disclosure gaps and data readiness
- Strengthening metrics, targets, processes and internal accountability
- Connecting climate-related information with strategy and financial decision-making

Trainer's Profile

Dr Ismet Yusoff

Dr Ismet Yusoff is an experienced corporate governance advocate with extensive expertise in policymaking, regulatory frameworks and sustainability. Previously, he served as Chief Executive Officer of the Malaysian Institute of Corporate Governance (MICG) and held roles at the Securities Commission Malaysia, contributing to key national governance and sustainability frameworks. His contributions include the Malaysian Code of Corporate Governance, Bursa Malaysia Listing Requirements, the Sustainability Reporting Framework and the establishment of the Institute of Corporate Directors Malaysia. He holds a doctorate from the International Islamic University Malaysia.

Datin Seri Sunita Rajakumar

Datin Seri Sunita Rajakumar is a professional independent director and a strong advocate of the importance of governance in general and risk management in particular. She is a member of the World Economic Forum's Global Future Council on Climate and Nature Governance, a multi-stakeholder expert knowledge network, as well as Founder of Climate Governance Malaysia (the country chapter of the World Economic Forum's Chapter Zero Alliance), which, in 7 years, under her leadership, has grown to be a significant advocate for increased climate ambition, as arguably the largest private sector mobilisation for climate action. She is Chairperson of Bursa-listed Dutch Lady Milk Industries and an independent non-executive director of HSBC Bank Malaysia and Zurich General Insurance Malaysia, as well as a trustee of charitable foundations. She is also Adjunct Professor at UNITAR International University, Fellow of the Institute of Corporate Directors Malaysia, member of the External Advisory Committee for Sunway University's Master in Sustainable Development Management, and the workstream lead for government policy for the CEO Action Network, an industry-led initiative to increase sustainability and climate resilience.

Dr Gary Theseira

Dr Gary Theseira is Adjunct Associate Professor at the Asia School of Business and UCSI University, Chairman of the Climate Governance Malaysia (CGM) Council, and serves on several national sustainability and climate advisory bodies. Formerly Deputy Undersecretary for Climate Change at the Ministry of Natural Resources and Environment, he represented Malaysia at 14 UN Climate Conferences (COPs) and was appointed by the G-77 and China in 2012 to coordinate negotiations leading to the 2015 Paris Agreement. He holds a Ph.D. in Agronomic Crop Simulation from Mississippi State University, with postgraduate qualifications in Agriculture and Soil Physics from Southern Illinois University, and completed postdoctoral research at the University of Minnesota.
